How to stop the transfer of your super to the ATO and maintain your account with NESS Super

As a reminder, under the rules that apply to small and inactive account balances, NESS Super is required to regularly report and pay certain accounts as unclaimed super money to the Australian Tax Office (ATO).

So, here are some simple ways to stay in control of your super and maintain your account with NESS Super:

- Update your contact details, including email and business address
- Contribute to your NESS Super account, either by making your own contributions or asking your employer to contribute to your NESS Super account
- Consolidate any other super accounts
- Stay with us when you retire (or are approaching retirement) with NESS Pension.

Please contact us on 1800 022 067 to find out more about maintaining your account with NESS Super and avoiding your account being transferred to the ATO.

NESS Super continues to invest members' money on a long term basis. The NESS Super Board believes that diversification is essential in the current environment and is investing with this key principle in mind. To this end, NESS Super has diversified its exposure to higher risk assets to include diversifiers to shares such as property, infrastructure and credit securities, which all have the potential to deliver sound long term returns. In addition, we are also keeping a healthy level of cash to maintain the liquidity of the Fund. We believe that over the long term, this strategy will provide members with sound returns. **For further information and investment commentary, please see the 2013 Investment Commentary News article on our website at www.nesssuper.com.au**
